A travelling wave

pdfoxium / JavaScript and annotation-frame animation

Click the picture or Play / Pause to start and stop.

The wave travels; the orange point moves up and down.

Play / Pause

24 vector frames / 10 frames per second / no embedded movie

Go to page 2 to stop it. Returning resets the first frame.

Animation pauses offscreen

pdfoxium / JavaScript and annotation-frame animation

The page-visibility action cancels the animation timer.

Return to page 1 and click the picture to play again.
